Workshop on Privacy, Personalization, and (Intelligent) User Interfaces (PPIUI)

part of the ACM Conference on Intelligent User Interfaces
Atlanta, GA, USA - March 29 to April 1, 2015

Call for papers

The Workshop on Privacy, Personalization, and (Intelligent) User Interfaces (PPIUI) will be held in conjunction with IUI on March 29 or April 1 (TBD), 2015, in Atlanta, GA. The deadline for submissions is **January 16, 2015**.

Additional information and paper submission instructions are available at bit.ly/ppiui.

The workshop invites submissions on architectural, algorithmic, and interactive solutions that can support privacy-preserving intelligent user interfaces. Additionally, we invite papers that investigate how users of information systems (not just intelligent systems) interact with privacy-settings interfaces and make decisions about privacy. Such behavioral analyses can be used to make intelligent privacy-settings user interfaces that simplify privacy decision through privacy recommendations. Work that describes, implements, or tests such intelligent user interfaces is particularly welcome.

Topics include, but are not limited to:

- Algorithmic solutions to IUI privacy
- Architectural solutions to IUI privacy
- Interactive solutions to IUI privacy
- Descriptions or evaluations of privacy-settings user interfaces
- Descriptions or evaluations of intelligent privacy-settings user interfaces
- Measurement and analysis of privacy behaviors
- Privacy prediction / personalization
- Surveys of privacy problems in the field of IUI

PPIUI solicits full research papers (4-10 pages) and position statements (up to 3 pages).

Organizing committee:

- Bart Knijnenburg (University of California, Irvine)
- Shlomo Berkovsky (CSIRO, Australia)
- Pamela Wisniewski (The Pennsylvania State University)
- Eran Toch (Tel Aviv University)
- Arik Friedman (NICTA, Australia)
- Norman Sadeh (Carnegie Mellon University)

Important dates

NOW: Expression of interest
Please contact the organizers if you are contemplating a paper submission. We can give you tips to optimize the relevance of your submission for the workshop.

Jan 16: Submission deadline

Feb 13: Notification of acceptance

Mar 6: Camera-ready deadline

Mar 29 or April 1 (TBD): Workshop day!
